

RUBBER STAMP REPS

Obamacare Repeal

Dozens of House members represent districts where the majority of the constituents voted against this administration's platform, yet these representatives are acting as rubber stamps for the White House's extreme agenda rather than working for the people they represent.

Issue Background

The below Representatives voted for HR 1628—a bill that would mean 23 million fewer Americans could access quality, affordable health coverage. This disastrous bill to repeal Obamacare punishes people for getting sick, for getting older, for having less income, for being female—all to hand a massive tax giveaway to the rich. It slashes Medicaid by nearly \$1 trillion, guts protections for pre-existing conditions, and defunds Planned Parenthood. It also removes requirements enforcing insurers to cover essential health benefits. This irresponsible bill puts partisan politics ahead of the health, well-being, and economic security of the American people. Medical experts, health care providers, and leading health organizations all agreed that this bill would be damaging for millions of Americans.

Members of Congress must be held accountable by their constituents for their callous vote to strip coverage from tens of millions of Americans, and essential protections from millions more. This bill is a clear attack on the present and future well-being of millions of Americans and takes away health protections from the poor, sick, and old—people who can afford it the least.
