# Weakening Gun Laws through Concealed Carry Reciprocity

Dozens of House members represent districts where the majority of the constituents voted against this administration's platform, yet these representatives are acting as rubber stamps for the White House's extreme agenda rather than working for the people they represent.

## Issue Background

The below representatives voted for "concealed carry reciprocity," which weakens our gun laws and makes us less safe. Right now, states have the right to choose which other states' concealed carry permits they recognize, which is important because the requirements vary drastically from state to state. But this bill forces each state to recognize concealed carry permits from every other state no matter how lenient their permitting standards are, forcing states with strong gun laws to comply with weak laws from other states. If this bill becomes law, dangerous people—including convicted stalkers, violent criminals, and domestic abusers or people with no training or experience firing a gun—could walk around with hidden guns nearly anywhere in the country at any time.

**Members of Congress should oppose this bill because it would unequivocally make Americans less safe, from our children to our police officers. This bill undermines some states' common sense gun laws, creates unacceptable risk to our nation's law enforcement, and severely threatens public safety.**
